Professional Summary

Professional Summary

Motivated Full-Stack Developer with hands-on experience in building scalable web applications using MERN, MEAN, and Spring Boot technologies. Skilled in Java, Python, JavaScript, React.js, Angular, Node.js, Express.js, and MongoDB. Experienced through internships at Infosys Springboard and Softpro India, delivering real-world software solutions. Certified in Artificial Intelligence and Python Web Development with knowledge of Generative AI and Prompt Engineering. Served as **Vice President, Student Council** and **Web Master, IEEE Student Branch**, demonstrating strong leadership, problem-solving, and teamwork skills. Passionate about innovation, continuous learning, and developing impactful technology solutions.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering,
Uttar Pradesh, Sanskriti University, Mathura, Uttar Pradesh, India
CGPA 7.5/10

08/2022 – 05/2026

Mathura, Uttar Pradesh, India

Training & Exposure

Artificial Intelligence Trainee, ICT Academy

03/2026 – 03/2026 | Uttar Pradesh, India

- Completed Artificial Intelligence Training under ICT Academy in association with Microsoft and Redington Foundation with an **A+ Grade**.
- Gained hands-on experience in Artificial Intelligence, Generative AI, Prompt Engineering, and AI-powered applications.
- Worked on practical AI use cases, emerging technologies, and real-world problem-solving projects.

Full-stack Developer, Infosys Springboard

09/2025 – 11/2025

Bengaluru, Karnataka, India

- Contributed to both front-end and back-end services in the software development lifecycle
- Built responsive user interfaces with Angular and developed modular components
- Integrated RESTful APIs and focused on delivering seamless user experiences through optimized UI/UX
- Worked with Node.js and Express.js for back-end services, managing middleware and ensuring application security
- Created MongoDB schemas and optimized queries for efficient data management
- Participated in Agile practices and collaborated with cross-functional teams

Software Development Engineer, Softpro India Computer Technologies (P) Ltd

06/2025 – 08/2025

Noida, Uttar Pradesh, India

- Developed a MERN Full-Stack Project showcasing end-to-end web development
- Used React.js, HTML, CSS, and JavaScript for creating interactive user interfaces
- Worked on server-side logic using Node.js and Express.js, ensuring secure communication
- Created efficient schemas in MongoDB, managing CRUD operations and optimizing queries

Python Web Development Trainee, ICT Academy

02/2025 – 03/2025 | Uttar Pradesh, India

- Completed Python Web Development Training under ICT Academy with an A+ Grade.
- Gained hands-on experience in Python, HTML, CSS, and JavaScript.
- Developed practical projects and collaborated in team-based learning.

PROJECTS

TaxSphere — Smart Finance & Tax Intelligence System,

02/2026 – 05/2026

Major Project | MEAN Stack (MongoDB, Express.js, Angular, Node.js)

- Developed a full-stack Smart Finance & Tax Intelligence platform for freelancers and self-employed professionals using the MEAN stack.
- Implemented secure authentication, role-based access control, and responsive financial dashboards using Angular and Node.js.
- Built modules for income & expense tracking, budgeting, tax estimation, ITR filing workflow, analytics, and automated financial reporting.
- Designed CA and Admin dashboards for audit management, filing verification, payment monitoring, and system administration.
- Integrated real-time financial analytics, PDF/Excel report generation, and MongoDB Atlas cloud database management.
- Deployed the application using Netlify, Render, MongoDB Atlas, and Cloudinary with scalable REST APIs and production-ready architecture.
- Built a production-ready fintech platform featuring intelligent tax estimation, budgeting, financial analytics, CA workflow management, and cloud deployment.

TaxPal: Personal Finance & Tax Estimator for Freelancers, Remote

09/2025 – 11/2025

- Developing a web-based personal finance and tax estimation platform for freelancers as part of Infosys internship.
- Architecting secure modules for transaction logging, categorization, and budget management.

- Integrating dynamic tax estimation engine and automated financial reporting.
- Enabling users to download detailed monthly/quarterly reports for tax filing.
- Collaborating with Infosys mentors to implement scalable fintech practices.

EduGate - Admission & Information Management System, Softpro India Computer Technologies Private Limited (Pvt. Ltd.), Noida, Client: REC Mirzapur

06/2025 – 08/2025

- Web-based platform for automated student admissions and information management, built for REC Mirzapur during Summer Internship.
- Developed with MERN stack (MongoDB, Express.js, React.js, Node.js) and Bootstrap 5.2 in a 10-member team.
- Delivered core modules for online admission/registration, course & session management, and enquiry handling.
- Integrated role-based dashboards, Email/SMS notifications, and demo payment gateway.
- Project graded A+ for timely, effective delivery and team leadership.

Exam Portal, Sanskriti University

02/2025 – 06/2025

- Developed a full-stack online exam management platform for students and administrators.
- Built RESTful backend using Spring Boot and created a responsive AngularJS frontend.
- Implemented secure authentication, automated result processing, and exam scheduling.
- Optimized platform for both desktop and mobile, resulting in faster exam workflows and improved user satisfaction

SKILLS

Languages — Java | Python | JavaScript | HTML | CSS

Frameworks & Libraries — React.js | AngularJS | Express.js | Node.js | Spring Boot | Bootstrap | Tailwind CSS | Rest API

Developer Tools — Visual Studio Code (VS Code) | IntelliJ IDEA | Figma | MongoDB Compass | MySQL Workbench | Docker | GitHub | Postman

AI Tools — ChatGPT | GitHub Copilot | Claude AI | Google Gemini | Perplexity AI | Microsoft Copilot | Cursor AI

AI Technologies — Artificial Intelligence (AI) | Machine Learning Fundamentals | Prompt Engineering | Natural Language Processing (NLP) | AI Chatbots

Soft Skills — Problem-Solving | Communication | Leadership | Team Collaboration | Time Management | Adaptability | Critical Thinking | Quick Learning

Platforms — Windows | MongoDB Atlas | Vercel | Netlify | AWS | Google Cloud

Certificates

- ICT Academy - Python(Web development)
- INTEL - AI AWARE 2025
- IEEE - IEEE WORKSHOP
- ICT Academy – Artificial Intelligence
- Infosys Springboard - Angular Web Developer Certification
- Cisco Networking Academy - Introduction of cyber security
- TCS iON – YUVA AI For All

★ KEY ACHIEVEMENTS

Key Contributions to Web Development

- Successfully built secure, scalable, and dynamic applications using the MEAN stack, culminating in practical improvements to team workflows
- Delivered A+ graded MERN Stack project (EduGate) during internship, contributing core modules and ensuring timely, high-quality delivery. Built scalable full-stack applications using MEAN/MERN stack, improving performance and workflow efficiency.
- Developed secure REST APIs, optimized MongoDB schemas, and enhanced backend performance during Infosys Springboard internship.
- Created a full-featured Exam Portal using Spring Boot and AngularJS with automated result processing and secure authentication.
- Awarded an A+ Grade for outstanding performance in Python Web Development training Conducted by ICT Academy.
- Awarded **A+ Grade in Artificial Intelligence Training** conducted by ICT Academy in association with Microsoft and Redington Foundation.
- Served as Vice President, Student Council, Sanskriti University, leading student initiatives, events, and university-level activities.
- Served as Technical Secretary in Student Council, managing technical events, handling development tasks, and supporting campus initiatives.
- Worked as Web Master - IEEE Student Branch, managing website maintenance, content updates, and improving digital presence.
- Active Member of IIC (Institution's Innovation Council), participating in innovation programs, idea presentation sessions, and project development.
- Collaborated in Agile environments with cross-functional teams, contributing to UI/UX improvement and code quality enhancement.
- Skilled in **AI Tools, Prompt Engineering, Full-Stack Development, Cloud Platforms, and Modern Web Technologies.**
- Participated in multiple technical workshops, AI training programs, hackathons, and innovation activities.
